

Martin, an Engineer in Computer Science, has been involved in Web standardization for two decades, becoming an active part of different standardization organizations. Manager of the World Wide Web Consortium (W3C) Spanish Chapter from 2005 to 2021, Martin has been involved in numerous W3C Working Groups, leading some Semantic Web activities and developing technical standards for data interoperability and e-government. Martin, part of the standardization team at Huawei, keeps contributing to the Web-related standards in W3C, participating actively in different working groups, including the co-editor role for MiniApp specifications within the W3C MiniApps Working Group.
