HORIZON 2020 – Open Source

Work Programme « Foundations for Tomorrow's Industry » (2018-2020)

Call : Competitive, Low Carbon and Circular Industries

Topic : **CE-SC5-31-2020: Develop, implement and assess a circular economy oriented product information management system for complex products from cradle to cradle**

➢Informations générales

- Type d'action : IA
- Budget par projet : €7-9m

- Budget total disponible : €40m
- Deadline : **05 février 2020** (1st stage)

➢Domaines d'actions

The transition to a circular economy requires that the value in products is retained as long as possible. To achieve this, reliable information about the composition of components and materials is needed for health and safety in repair and recycling enterprises and for improved user integration in sustainable product design and in new business models.

➢Intérêt Open Source :

*« To facilitate open innovation and transferability, **open solutions such as open source software, open hardware design, and open access to data are encouraged** »*
